

Lighthouse Technologies, Inc. is an RF connector and cable assembly manufacturer located in San Diego, California, with factories in Taiwan. We manufacture a full range of quality RF connectors with MC Card, MMCX, MCX, SMA, SSMB, SMB, BNC, TNC, N, F, G, Mini UHF, UHF, and 7/16 interfaces. Our connectors and cable assemblies have a multitude of commercial applications like cellular telephones, wireless LAN's, advanced automotive electronics, and satellite and navigation systems. There are also defense applications in radars, missile systems, EW and surveillance. All of our components conform to quality assurance standards as well as applicable industry quality standards and military specifications. As a growing company, Lighthouse Technologies strives continually to assure customer satisfaction by providing the best possible quality and price for its products. Our goal and pledge is to provide you with consistently reliable products and services, from the inception of an idea to shipment of the finished product.

Semi-Custom and Custom Designs: If you do not find the exact connector configuration you need, please call us. We may have already produced what you need for another customer. If not, we will work with you to provide the connectors you need, according to your specifications, and with the best possible price, quality and delivery.

To Order: All orders can be placed directly with Lighthouse Technologies at 1-800-443-3446, or you can fax your order or special request for quotation or application to 1-858-292-8869. You may also contact us at our website, www.rfconnector.com.

Statement of Warranty: Lighthouse Technologies, Inc. warrants that for a period of one year from the date of initial shipment, all catalog products will be in full conformity with the electrical, mechanical, physical, and environmental specifications as listed in our product catalog. Lighthouse Technologies, Inc.'s liability under this warranty is limited to replacement or credit for material determined by Lighthouse Technologies, Inc. to be defective in material or workmanship. This warranty does not extend to any Lighthouse Technologies, Inc. products which fail in operation or malfunction by reason of method of installation, application or inspection, or have been subject to misuse, neglect, or an accident, or have been repaired or substantially altered in any manner. All warranty claims must comply with the following conditions:

1. Claim must be made in writing to Lighthouse Technologies, Inc. within one year after date of shipment.
2. Claim must include Lighthouse Technologies, Inc. invoice number and shipping date (or date of invoice).
3. Upon receipt of eligible claim, authorization will be issued with instructions for returning merchandise to Lighthouse Technologies, Inc.
4. If material is determined to be defective following inspection by Lighthouse Technologies, Inc., Lighthouse Technologies, Inc. will ship replacement material freight prepaid or issue credit.
5. Credit for material will be issued at price invoiced.

Cancellations/Terminations>Returns: All cancellations, terminations, or changes of acknowledged orders must be in writing and have written approval from Lighthouse Technologies, Inc. Written cancellations must be submitted two (2) weeks in advance and be approved by Lighthouse Technologies, Inc. Returns must be authorized by, and are subject to inspection by Lighthouse Technologies, Inc. Returns and cancellations are subject to charges determined by Lighthouse Technologies, Inc. All claims for shortages must be made within 30 days of shipment.
